

FLORIDA COUNCIL For Community Mental Health

On June 21, 2007, the Florida Council for Community Mental Health board of directors unanimously voted to provide a statewide endorsement to the Florida Insurance Trust (FIT). FIT is the **first and only insurance trust in the state of Florida for non-profit agencies** and has become a valuable partner to FCCMH. Since the formation of FIT on June 1, 2007, they have provided insurance products and services at a substantially reduced cost to the FCCMH membership. FIT is a member owned insurance trust.

FIT is professionally administered by Non-Profit Insurance Services, Inc. (NPIS). NPIS is the only insurance program administrator in Florida dedicated exclusively to working with the non-profit social services entities. The success of FIT continues to grow as do the savings that the FCCMH members are experiencing. This year at the FCCMH annual conference, FIT has generously sponsored the opening night reception. We encourage all FCCMH members to make every effort to meet the representatives from FIT at the reception or their exhibit booth.

FIT provides the following types of insurance at reduced cost while maintaining or improving the current levels of coverage.

- Workers Compensation
- Property
- General Liability
- Commercial Auto
- Professional Liability
- Directors & Officers Liability

FCCMH continues to endorse FIT because they have proven that they can deliver what they commit to. In these trying times of budget cuts, the significant savings in insurance premium from FIT is of value to each and every FCCMH member.

If you are interested in becoming a member insured of FIT, please contact the offices of Non-Profit Insurance Services (NPIS) at 407-936-2132. For additional information please visit their website at:
